of that brook they had found refreshed to be a king and now is to die with common thieves. And THESE are his words:

Let not your heart be troubled.

There is nothing in history so imajestic! Already one of his disciples had slipped away to betray him. That very night the soldiers may to be tray him. That very night the soldiers would take him, bind him, throw him into prison.

The priests and heart Zaccheaus will be glad to by daylight, rest tomorrow, cross the Jordan and do useful work the rest of our lives. The disciples can fish; I can open a carpenter turn to taunt him now. He would be harried through the streets like a nunted thing, and our one of his disciples and please and the priests and please are the sum of the priests and please are turn to taunt him now. He would be harried through the streets like a nunted thing, and our one of his disciples are his words:

I control to the clourt House door at Elba, in Coffee County, Alabama, on Monday, December 11, 1933, and the him bind him, throw him into prison. The priests and priests are made to display the here in half an hour. Why should a stay and die? It is only eighteen miles to Jericho, bright moonlight and down hill all the way. Our friend Zaccheaus will be glad to be accused by daylight, rest tomorrow, cross the Jordan and do useful work the rest of our lives. The disciples can fish; I can open a carpenter turn to taunt him now. He would be harried through the streets like a nunted thing, have done everything that could be expected of me. Why not?"

Taxes fall due on October 1st and become delinquent

W. H. EDMONDS, Tax Assessor. A. J. MORROW, Tax Collector.

ALABAMA POWER COMPANY

To the Customers of Alabama Power Company:

We are sure the great majority of you have felt in recent years the burden of mounting taxes which the citizen everywhere is required to pay to sustain the constantly increasing cost of government-municipal, county, state and national. We wonder, however, what you will think when we tell you that the taxes of this company have increased 1300 per cent within the short period of ten years.

In 1922 our taxes amounted to \$2.54 for every \$100 of revenue collected. In 1928 we paid out for taxes \$7.55 for every \$100 of revenue collected. In 1933 we estimate our taxes will be \$14.25 for every \$100 of revenue collected. Let us state it in another way: In 1922 we paid \$7.65 in taxes for every customer we served. In 1933 we estimate we will pay \$22.60 in taxes for every customer we serve.

You can see, therefore, that our tax problem concerns you as much as the problem of taxation generally concerns the citizenship of every com-

The taxes we pay constitute a considerable part of our operating cost and as such are recovered from the revenue we receive. In the end our customers pay our taxes. The total local, state and federal taxes of the company from 1922 to 1933 inclusive are

\$ 151,943.04 579,305.27 694,387.76 788.551.40 837.382.27 1.067.002.10 1.379.849.54 1.669.811.15 1.982.309.79 1.019.678.28 1,981,661,45

1933 (Estimate) 2,200.000,00 Municipal and government-owned plants pay no taxes. If this company which provides you with electric service could escape payment of taxes it would be able to reduce the cost of electric service to its domestic, commercial, power, and other users by \$2,200,000 annually or almost 15 per cent.

> Yours very truly, THOMAS W. MARTIN, President.

Tuesday night.

As stated in our advertisement in this paper about thirty days ago, the officers of this bank feel absolutely certain that this section of the country is definitely on the road to better conditions and reasonable prosperity.

We base our conclusions on the condition of this bank as manifested by the statement published below, to which we invite your careful attention.

and MARY HOWARD in day with relatives in Elba.

Added Comedy and Short Subjects and Monday.

In this connection, we want to point with pride to the fact that during the past four years of hard times, our institution has taken care of each and every borrower who was entitled to credit without requiring unreasonable security or terms, and on this record we solicit not only a continuance of past business relations, but we solicit new accounts of individuals, firms and corporations.

It is well to bear in mind that any bank can and will lend you money during good times, but what of their attitude when conditions are bad and you are most in need of financial help?

It is the part of wisdom for every individual, firm and corporation to do their banking business with a bank that is not only safe and conservative, but one that is progressive enough not to draw in a shell when adverse conditions predominate and refuse to lend money except on terms and security with which the borrower cannot comply.

We Pay 3 Per Cent Interest, Compounded Semi-Annually, On Savings Accounts.

WE SHALL APPRECIATE YOUR BUSINESS
